

The G & A Barnie Group will endeavour to maintain the highest environmental standards possible while carrying out all our activities and our commitment to achieving this goal is contained in this environmental policy. The QHSE manual provides an overview of our management system.

The company will establish annual objectives in order to maintain and improve the environmental management system and to achieve continual improvement. The company is committed to fulfilling all compliance obligations.

As a company we will:

- Continue to reduce emissions from fleet transport.
- Design systems that are energy efficient.
- Whenever possible, use materials and equipment that is environmentally friendly.
- Advise clients or other contractors where better methods or materials may be used to sustain or enhance the present environment.
- Reduce the amount of waste materials we create and ensure that we follow the duty of care for all waste.
- Ensure compliance with air emissions legislation.
- Where excavations have taken place, reinstate the area to its original condition.
- Through using good management techniques ensure that our operations, sub contractors and suppliers have minimal impact on the environment.
- We will regularly ensure that our employees, sub contractors and suppliers are made aware of our commitment to maintaining, protecting, and improving the environment.
